

David Vierra

Next Level Client Services Consultant

nextlevel@f3law.com

What can I solve for you?

In the unpredictable and fast-paced school district environment, I can lead you through an inquiry process that breaks down even your most complex issues and concerns into manageable next steps. We will collectively discuss, research, develop and implement resolutions that take all potential impacts carefully into account.

What's it like to work with me?

Working with me will be easy, relational and productive. I will listen to you carefully, ask you thoughtful questions, and provide substantive, actionable and honest opinions and advice. I truly enjoy and find purpose in helping clients to shape and achieve their goals and reach their full potential. As one client put it, "When working with David, you can expect a thoughtful, genuine interest in both your short- and long-term goals/needs, as well as personal and professional interests."

Overview

David Vierra brings four decades of experience, in all administrative ranks, to new and veteran school leaders, helping them to identify and meet specific goals, and guiding them through whatever challenges they may face in the rapidly changing educational environment.

With his collaborative, team approach, David has a keen ability to build capacity in others. As a mentor or executive coach, he assists district leaders and aspiring leaders with professional development, strategic

planning, human resource management, labor relations, fiscal solvency, school safety, and student engagement. He has personally guided districts through serious crises, as well as challenges created by rapid population surges and demographic shifts.

David works with all members of a district's governance team, advising and training them on substantive governance issues—while helping them to collaborate and communicate effectively with each other, the stakeholders, and the broader community in a way that best serves the interests of their students. He has also assisted institutions of higher education with governance matters.

After School

My wife and I love spending time with family, friends, and our grandkids. We enjoy the outdoors—hiking, walking, working out, and attending sporting events.
